**Practice Nights:**

Everything is going well at the park. We should start looking at the rink space now so it isn't an issue when we need it this fall. Participation has been down from pre-covid times. Is there a reason or anything we can do to get more people there?

Is the park easily accessible by bus? Is what we are doing that make it better for more people?

Archery in the park is still an interest, maybe it brings more new people?

When and where do we want to go inside? Its time to Start looking into that.
